

The mainstream media (MSM) would have us all believe that Black people are systematically targeted and killed by police in America. To be sure they present a steady stream of [anecdotal evidence](#). You may have even read or heard the MSM cite something like the fact that “[Black Americans 2.5X More Likely Than Whites to Be Killed By Police](#)” However, it’s unlikely you’ve ever heard anything from MSM about the fact that blacks commit roughly 50% of the homicides in this country [Homicide Trends in the United States, 1980-2008](#) (Table 1 on page 3) or that their rate of homicidal offense is almost 8X larger than for whites (first note on same page 3). When you think about, is there any reason that we should not expect the number of blacks killed by police to be more than 2.5X that of whites when their rate of homicidal offense is almost 8X larger than for whites?

- [Black Americans 2.5X More Likely Than Whites to Be Killed By Police](#)
- [Black Americans almost 8X More likely to be the **offender** in Homicides than Whites](#)

Now ask yourself, “Is there any reason that we should not expect the number of blacks killed by police to be more than 2.5X that of whites when their rate of homicidal offense is almost 8X larger than for whites?”
